

Epilipsium

Lyrics by "Captain Mission" *the deep fix*

They say the stars are made off jewels
They say the earth is eclipsed by the moon
They say that love is a game for fools
They say the mind is eclipsed by its moods

And I bring you liberty
I bring you relief
I will align your spirit my friend
Epilipsium

They say her whisper is sweeter than a sirens song
They say her kiss is like opium
They say she's both wave and particle
They say her essence is non local

And I bring you liberty
I bring you a moments peace
When all the lights go down and my work is done
Epilipsium
